

ONLINE COURSES

The board recognizes that online coursework may be a good alternative for students to not only meet graduation requirements but, also have the opportunity to take advanced or other courses not offered by the school district.

High school students may earn credits to be applied toward graduation requirements by completing online courses offered through the district or agencies approved by the board and the Iowa Department of Education. Credit from an online or virtual course may be earned only in the following circumstances:

- The course is not offered at the high school;
- Although the course is offered at the high school, an online course will be more conducive to the student's individual learning needs;
- Although the course is offered at the high school, the student will not be able to take it due to an unavoidable scheduling conflict that would keep the student from meeting graduation requirements;
- The course will serve as a supplement to extend homebound instruction;
- The student has been given a long-term suspension from the regular school setting, but educational services are to be continued.

If any of the above conditions are met, the student will work with a counselor and/or an administrator to determine courses and the guidelines in which the courses will be completed. The school must receive an official record of the student's final percentage score and suggested grade before credit toward graduation will be recognized.

Provided online courses are part of the student's regular school day coursework and within budgetary parameters, the tuition costs for an online course will be borne by the school district during the fall and spring semesters, but may be passed on to the parent/guardian during the summer semester. Any additional costs such as textbooks, rentals or school supplies, will be borne by the school district for students enrolled full-time.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy.
