

## SITE AND FACILITIES PROTECTION

The school district has established and maintains a considerable amount of playground and athletic areas for students and parking lots for persons having legitimate business at the school.

The superintendent, or his/her designee, will make such rules as are necessary for safety, to protect these properties, and insure their total availability for the needs of the school district. Rules will be developed which provide for use by outside persons. These rules will insure that there will be no conflict with school needs or philosophy.

The superintendent or his/her designee will develop rules in regard to traffic control on school drives and parking areas to both provide order and safety thereon.

The superintendent, or his/her designee, will take those steps necessary to insure the rules are observed.
