

LOAN OF SCHOOL EQUIPMENT

Equipment of the school district shall not be loaned outside of the district without the express permission of the building administrator. In the event that equipment is to be used by organizations within the school facility, appropriate school personnel shall operate or supervise the use of such equipment. Where a cost is involved, the using organization shall pay the cost.

Through arrangement with the superintendent of schools, school buses may be used by local governmental agencies or local community beneficial groups at the cost of the driver and other related charges. The driver must be properly qualified and currently employed by the district.

Any loss or damage to such property shall be the full obligation of the borrowers.
